### Who We Are

CompuCom is the leading IT outsourcing company that specializes in infrastructure management, application development, and the procurement and management of hardware and software. Our clients are among the most recognized Fortune 100 and 500 businesses, including high-growth companies and vertical market leaders. CompuCom's infrastructure management experience, industry talent and proven ITSM process methodologies are just part of the reason why we consistently outpace our industry in client satisfaction and service quality.

### We Are Experts at Driving Out Cost

Our Integrated Infrastructure Management solution (IIM™) takes a fresh yet practical approach to reducing the operational expense of the infrastructure while building business value. We strive to deliver initial savings to each client, then we build the infrastructure for continued savings through the term. The typical savings are substantial (10% -50%) depending on how the client's organization delivers service today.

### ELEVATE THE VALUE OF YOUR INFRASTRUCTURE

**Align More**  
Align IT to Your  
Business Plans

**Spend Less**
